

# Where in the World are the Penguins?

Draw a line connecting each penguin to its matching number on the map. The numbers on the map represent one of the areas in which that species of penguin can be found. Label the continents surrounding Antarctica.

**Map Labels:** Equator, Galapagos Islands, South Sheelard Islands, Falkland Islands, South Georgia & South Sandwich Islands, South Orkney Islands, Bouvet Island, Prince Edward Islands, Crozet Islands, Kerguelen Islands, Heard Island and McDonald Islands, Scott Island, Galleny Islands, Auckland Islands, Snares Islands, Antarctica, Fiordland crested

**Penguin Species and Numbers:**

- Magellanic (8)
- Humboldt (9)
- Galapagos (10)
- Chinstrap (2)
- Gentoo (4)
- Emperor (3)
- Snares Island (7)
- Yellow-eyed Penguins (15)
- Fairy (11)
- Southern rockhopper (18)
- King (16)
- African (17)
- Adelie (1)
- Macaroni (5)
- Northern rockhopper (13)
- Royal (12)
- Erect-crested (14)
- Fiordland crested (6)

## DEEPER DEPTHS

Some penguin species live in multiple areas of the Southern Hemisphere. Research penguin distribution to find out the range of a specific species of penguin. Color in its range on the map.
